### **Illinois Free Fishing Days June 15-18th**

**CHAIN O'LAKES:** BGs on the beds; walleye are “unbelievable” around current areas; catfish are “excellent” on crawlers, stinkbait or cut bait; water remains cool enough for muskie action;

**LAKE MICHIGAN:** Perch fishing reopens 6/15. Outstanding limits of Lake Trout and Coho, with Steelies and big Kings in 70–150 fow.

**DELAVAN: HOT!** LM post spawn moving out of the shallows in 12-15 fow along with the SM and pike;

**GENEVA:** Early LM can still be taken in 4-6 fow, later moving out to the weed lines. Rock bass fierce on nightcrawlers, minnows or whatever in 12-15 fow. SM good in 18-22 fow.
